Sample Cards - Information

The following is provided as a guide only for the application of personalized text contained within the Sample data set used to produce sample cards. The data file does not include the Domicilio/Address fields shown on the back of the example below, however bidders may substitute static text as explained below. The application of the following data is required for the sample cards:

Card Front	Card Back	
Photo Image	DCN – Not personalized – applied at manufacturing (Not required)	
Names (First/Fore)	Donor Symbol (where applicable) 0=No 1=Yes	
Surname (First/Second)	QRCode1	
Date of Birth (Tactile / Surface relief)	Address – Use static data for this field as presented in the sample below and in the box to right.	*Distrito Central Francisco Morazan Honduras*
Identification Number		
Nationality (all use the ISO code 340 for Honduras)		
Date of Expiry		
Place of Birth	Executive signatures not required for samples	
Cardholder Signature	QRCode 2	
Redundant Photo Image in Lenticular feature (Note the shape of the lenticular area need not be rectangular or same dimensions)	MRZ	
Redundant Date of Birth in Lenticular Feature		
Gender (Not printed but contained in the MRZ) 1=Male 2=Female		

The below biographical layout and positions are for reference only and intended as a guide. The exact positioning of biographical data applied for sample cards shall be determined by the Bidder referencing their understanding of ICAO and ITB requirements.
